The Nonwovens Network is happy to present its 22<sup>nd</sup> Summer event with our Seminar entitled 'Innovation'.

So much is happening in the Industry that keeping up to speed is not only challenging but also extremely exciting.

This year we have invited presenters from the U.K. and Mainland Europe to talk about their work which ranges from algae and sheep to micro plastics and graphene on the one hand and anti-bacterials, bio and smart technologies on the other. Also not forgetting the progress made with Nonwovens in fashion and in machinery and processing developments over the past 20 years.

We look forward to seeing all our dedicated members and associates again and also to those of you who are newcomers to the Network, of greeting and welcoming you into the fold.

Chris Wilkinson MBE, MPhil, CText, ATI Chairman Nonwovens Network
